Hello, we are CodeGoat's Dev team! Our names are Vignesh Nethrapalli, Rushi Athavale, Samuel Mendoza, Taher Afini, and Rahav Dayan.

We are computer science students taking CS490 at the New Jersey Institute of Technology. Most of us did not have much experience with web development, but were able to learn a lot more about it through this project.

We hope that you are able to use this tool to access a nice interface for translating one programming language to another using the ChatGPT API!

Learn more about our project on our Github: https://github.com/vnethrapalli/CodeGoat
